Getting 'It' Done

.....

Just be free and write whatever's in your mind:

Getting it done doesn't mean getting it perfect! A half-filled page of first draft writing is better than a blank page. It's step one in the process of getting that scene written up. Only then can it be edited and re-edited, crafted and honed to become exactly as you want it.

*Getting it done means getting it started. The finish will come if you work it, work it, work it.
Step-by-step to the finish.*

Phrases and words you like:

*getting it done + getting it started = getting it finished!
work it + work it + work it = done*

A half filled page is better than a blank page.
